Contents

| | | |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Chapter 1 | Introduction and outline of thesis | 11 |
| I Clinimetric studies | | 19 |
| Chapter 2 | A clinimetric overview of scar assessment scales <i>Journal of Burn Care and Rehabilitation. In press</i> | 21 |
| Chapter 3 | Objective scar assessment tools: a clinimetrical appraisal <i>Plastic Reconstructive Surgery. 2011;127(4):1561-70</i> | 41 |
| Chapter 4 | Distance Mapping versus Fourier analysis: new applications for reliable and valid collagen bundle morphometry <i>In revision</i> | 61 |
| Chapter 5 | A reliable, non-invasive measurement tool for anisotropy in normal skin and scar tissue <i>Skin Research and Technology. 2010; 16(3): 325-331</i> | 77 |
| II Experimental studies | | 93 |
| Chapter 6 | Differences in collagen architecture between keloid, hypertrophic scar, normotrophic scar, and normal skin: an objective histopathological analysis <i>Wound Repair and Regeneration. 2009; 17(5): 649-656</i> | 95 |
| Chapter 7 | Adaptation of the dermal collagen structure of human skin and scar tissue in response to stretch: an experimental study <i>Submitted</i> | 115 |

| | | |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| III | Clinical studies | 133 |
| Chapter 8 | Perforator based interposition flaps for sustainable scar contracture release: a versatile, practical, and safe technique <i>Plastic Reconstructive Surgery. 2011; 127(4): 1524-32</i> | 135 |
| Chapter 9 | Efficacy of skin stretching for burn scar excision: a multicenter randomized controlled trial <i>Plastic Reconstructive Surgery. 2011;127(5):1958-66</i> | 153 |
| Chapter 10 | Sustainable effect of skin stretching for burn scar excision: long-term results of a multicenter randomized controlled trial <i>Burns. In press</i> | 171 |
| Chapter 11 | Discussion and future perspectives | 187 |
| | Summary | 213 |
| | Samenvatting | 219 |
| | Dankwoord | 227 |
| | About the author | 229 |
| | Bibliography | 231 |
